THE SERIOUS CAMPERS CHOICE

3/8" LH BSP Gas cylinder certified to AS2449.
This appliance shall only be used with an approved LP gas hose which is certified to an approved 3/8" LH BSP Gas cylinder (sold separately) via the 1000mm LP gas hose which is included.
To fill propane, built-in windshields maintain heating performance in windy conditions. The stove is ready for connection to an approved 3/8" LH BSP Gas cylinder (sold separately) via the 1000mm LP gas hose which is included.
This product design and function is combined in this portable 3 burner stove. The burners are rated at 6,400 and 8,600 BTU which are individually controlled and are infinitely variable from simmer to full power. Built-in windshields maintain heating performance in windy conditions. The stove is ready for connection to an approved 3/8" LH BSP Gas cylinder (sold separately) via the 1000mm LP gas hose which is included.
